

# AI & Emerging Tech at the Disability:IN Global Conference & Expo

**For Builders, Investors, and Leaders  
Shaping the Future of Business.**

**Artificial Intelligence (AI) is reshaping work, products, and customer experiences at unprecedented speed.**

When accessibility and disability-inclusive design are embedded early, AI becomes a powerful driver of performance, trust, and scalable innovation- enabling organizations to build systems that work better for more people.

## WHAT YOU'LL GAIN

- Human-centered frameworks for accessible, responsible AI
- Real-world use cases and practical guidance for adopting, upskilling, and operationalizing AI across teams and functions
- Insight into agentic tools as scalable, tech-enabled accommodations
- Perspectives on aligning AI innovation with trust, transparency, and global readiness

## CONVERSATIONS SHAPING THE FUTURE OF BUSINESS

- Power for the People: Advancing Accessibility in Human-Centered AI
- Human (Experience) in the Loop: Co-Designing Innovation
- The Convergence Point: Legal Opportunities & Risk in AI Accommodations
- Assistive Tech as Mainstream Tech
- Plus: lightning rounds, networking, the premiere showroom of emerging solutions [...and more!](#)
